

PER JOHANSSON, SWEDISH POLICE AUTHORITY, SWEDEN

About the organization

All the information in this case study was generously provided by the Swedish Police Authority located in Kristianstad. Per Johansson from Swedish Police Authority investigates child exploitation, homicide, fraud and forgery, computer crime, drugs, missing persons, harassment and abuse.

The business challenges that led Swedish Police Authority to evaluate and use Belkasoft Evidence Center:

- Delivering results in time
- Finding all relevant data
- Analyzing wide spectra of applications
- Various data sources in one case (mobile, computer, cloud)
- Looking for cost-effective solution

It's really impressive how fast and excellent the software presents the gathered information

About the case

Swedish Police Authority finds the following BEC viewers the most useful in solving cases:

- Case explorer
- Overview
- SQLite viewer
- Plist viewer
- Bookmarks
- File System Explorer

Swedish Police Authority has experienced the following benefits when using Belkasoft products:

- Simple User Interface
- More evidence from deleted and destroyed data
- Amount of artifacts and data types supported out of the box
- Fast data extraction

General impression

“The software is really good contestant against my other forensic tools in my arsenal. It's really impressive how fast and excellent the software presents the gathered information which really speeds up the investigation no matter the crime that is being investigated.”
