PABLO SALINAS, ARSAL SECURITY INFORMATION, ARGENTINA

Pablo Salinas is a forensic specialist from Arsal Security Information. He investigates child exploitation, homicide, fraud and forgery, theft and handling, computer crime, drugs, missing persons, property damage.

The **business challenges** that led Arsal Security Information to evaluate and use Belkasoft Evidence Center:

- Combining various data sources in one case (mobile, computer, cloud)

> " BEC is very intuitive and as useful as well. "

Pablo Salinas finds the following BEC viewers the most useful in solving cases:

- Case explorer
- Task manager
- SQLite viewer
- Google Maps
- File system explorer

The **benefits** Pablo has experienced using Belkasoft products:

- More evidence from deleted and destroyed data
- Simple user interface
- Comprehensive Live RAM analysis
- Analysis of processes and malware
- Mobile, hard drives and cloud acquisition
- Amount of artifacts and data types supported out of the box
- Advanced low-level analysis
- Social graph and communities detection
- Fast data extraction

General impression

"It's a good and potent tool. I recommend it to everyone who are starting with forensic investigations because this tool is very intuitive and useful as well."
